// EXPERIENCE

BPCE IT — BPCE Financement

Nov 2024 → present

DevOps Engineer, Build & Integration · Paris · hybrid · freelance

Industrialise and secure the group's web components and certificates; lead for an application domain.

- **Portable** Apache HTTPD stack compiled on RHEL 6 → 9.5, packaged with no system dependency, SSL/LDAP without root privileges — **adopted as the production standard.**
- CI/CD pipeline Bitbucket → Jenkins → Artifactory → XL Deploy; build, upgrade and deployment documentation.
- JKS keystore/truststore automation: Bash + jq, dynamic Ansible inventories, publication to Artifactory, delivery through Jenkins → XLD.
- Daily run, 24/7 on-call rotation, interface between technical teams and business lines; team training (Ansible, AAP2) and group-wide AAP2 presentation.

Amundi Technologies

Jan 2022 → Dec 2024

DevOps Engineer — application lead, deputy tech lead · Paris · hybrid · freelance

Finance, employee savings and private banking scopes; deployment automation and application stability.

- Automated fail-over of application and database clusters: **80 % time saved** during DR exercises, human-error risk almost eliminated.
- Deployments Git → AWX → Ansible; Control-M “as code” (JSON/Jinja2 templates deployed by playbook).
- Kubernetes onboarding: Helm charts, ConfigMaps/Secrets, Jenkins pipelines, ArgoCD sync.
- Oracle Financials & OBIEE migration from Solaris to SUSE; team meetings run in English; onboarding of newcomers.

BPCE Lease

Dec 2020 → Dec 2021

Cloud tech lead & production engineer · Paris · hybrid · freelance

Migration of a critical application to Azure, carried out alone after the project manager left three weeks in.

- End-to-end PowerBI → Azure migration: sizing, network, security, access rights, gateway, ODBC; **delivered unsupervised** and fully documented (technical, functional, costs).
- CI/CD pipeline XL Deploy / XL Release with Terraform; Zabbix monitoring; Control-M restart chains.
- Production run in parallel with no service degradation; 24/7 on-call.

Amundi

Nov 2018 → Dec 2020

Operations analyst — application production · Paris

- Real-time batch monitoring (Control-M) and alerting (Centreon), production releases, ITIL procedures, extended hours.

Euler Hermes France

Jul 2015 → Oct 2017

Operations & datacenter technician · La Défense

- Multi-OS operations (Unix, AIX, Windows), TWS/IWS, Nagios, SAP/CICS/WAS; 6 months in the datacenter (fibre patching, racking, physical go-live).

// SKILLS

Automation & CI/CD

Ansible Ansible Automation Platform 2 AWX Jenkins

GitLab CI Bitbucket Artifactory XL Deploy / XL Release

ArgoCD Helm Kustomize

Cloud & IaC

Azure and Terraform (BPCE Lease migration 2021) XCP-ng

vSphere Docker Compose

Observability

Prometheus Grafana Loki OpenTelemetry VictoriaMetrics

Centreon Zabbix AppDynamics Splunk

Languages

Bash Python jq YAML Jinja2 JSON Rust (basics) C

Containers & orchestration

Docker Kubernetes K3s OpenShift Longhorn MetalLB

ingress-nginx cert-manager Sealed Secrets

Systems

Red Hat (RHEL 6 → 9.5) SUSE Debian/Arch AIX Solaris

Windows Server Apache HTTPD JBoss Nginx

Security

SSL/TLS OpenSSL JKS keystores Venafi LDAP Infisical

Authentik Linux hardening

Ways of working

Run & 24/7 on-call ITIL Agile documentation

team training

// PROJECTS

Homelab K3s, 100 % GitOps

homelab.scasse.com

3 Raspberry Pi 4, K3s 1.29, MetalLB, Longhorn, cert-manager, Sealed Secrets, Argo CD App-of-Apps (9 apps), 3 Ansible playbooks, Hugo docs deployed by GitLab CI.

Hub — shared platform

NUC XCP-ng

Gitea, Infisical, Authentik, observability OpenTelemetry → VictoriaMetrics → Grafana, Gitea Actions CI with a SonarQube quality gate.

Skynet — local-first AI cockpit

Claude · MCP

Personal assistant driven by Claude: semantic memory, MCP tools, fleet supervision, voice; continuous deployment to a VM.

nalarch — open source

Rust · MIT

TUI package manager for Arch Linux; nothing runs without an approval screen.

Norteo — CMMS SaaS

React · Express · Prisma

Multi-tenant white-label; Gitea Actions CI/CD, Blue-Green deployment, SonarQube quality.

// EDUCATION

- 2019 DevOps tooling training: Ansible / Jenkins
- 2018 ITIL certification (level 1)
- 2017 École 42 Paris “Piscine” — C programming, start of a self-taught path
- 2016 AIX administration certification (level 1)

// LANGUAGES

French — native

English — professional — team meetings run in English

// WHAT THEY SAY

« Autonomous, structured, documented. A reference on our scope. »

« Able to take a technical project from A to Z, even in a sensitive environment. »
